

The Second Aquaphotomics European Conference  
Lurdy International Conference Center  
Budapest, Hungary

2nd – 3rd December, 2019

## **SPONSORSHIP INVITATION**

Dear Sir/Madam,

The 2nd Aquaphotomics European Conference is scheduled to take place from **2nd – 3rd December, 2019 at the Lurdy International Conference Center, Budapest** and is being organized in cooperation with the Faculty of Food Science, Szent Istvan University, SISNIR - Società Italiana di Spettroscopia NIR and the International Aquaphotomics Society.

The conference aims to, build upon evolving ideas from the First Aquaphotomics meeting in Lugano by bringing together, researchers, scholars, students and industrial key players. The program will cover major fields of science, particularly spectroscopy and water functionality and the official language will be English. Aquaphotomics is an interdisciplinary scientific field that has increasingly become relevant in Europe.

This conference provides opportunities for delegates and participants from all over the World with special focus to Europeans to exchange new ideas and experiences, to establish business or research relations and to find new partners for future collaboration. We encourage commercial companies, research institutes and universities to take advantage of this ideal forum for corporate exposure and marketing opportunities to professionals.

Our industry partners are an integral and very important part of the conference so we will work closely together with you to ensure strong visibility and provide you with a number of opportunities to interact with the delegates and deliver your key message to the audience.

We look forward to welcoming your participation as Exhibitor and/or Sponsor in what we believe will be a truly remarkable conference. Please review the list below for Sponsorship opportunities and we will be happy to coordinate your participation in the conference.

Sincerely,

Zoltan Kovacs, PhD  
Organising Committee Chairman for  
the 2nd European Aquaphotomics Conference
